IMPORTANT TO OIL AND RAILWAY GREASE MERCHANTS AND FACTORS.

FOR SALE, at the Works at Weymouth, or may be delivered to any part of the kingdom, the superior product by Distillation of BITUMINOUS SCHALE, or BOGHEAD COAL, "LIQUID BITUMEN," containing 1st, a Volatile Oil, or Mineral Spirit; 2nd, an Oil of a greater density; 3rd, a Fatty Mineral Oil; 4th, Paraffine; 5th, Grease, slightly alkaline; 6th, Tar. The Volatile Oil, or Mineral Spirit, is admirably adapted as a solvent, and may be used for all purposes to which the most highly rectified spirit of turpentine is employed, or may be used for spirit and camphine lamps. The second oil, not so very volatile, will dissolve in any proportion with seed or fish oils, of which it considerably augments their illuminating power, and prevents their becoming rancid. The third is admirably adapted for lubricating machinery, and resembles—the 4th, Paraffine, which is easily obtained by crystallization, and requiring but little treatment to make excellent candles. The 5th, Grease, superior to animal oil or fat for the use of carriages. The 6th, Tar, perfectly black, very sensitive and which may be used generally for all purposes of varnish, and where mineral tar is employed. Any further information may be obtained of Mr. C. MACKINTOSH, Asphalte Works, Weymouth; or of Mr. C. F. CHEVINS, 11, Southampton buildings, Chancery-lane, London.

Gibbs, Canning, and Co.'s Glazed Pipes, Bricks, &c.

TO BUILDERS, CONTRACTORS, AND OTHERS.

GREAVES'S BLUE LIAS LIME and CEMENT, direct from the works, Stockton.—BETTY and VERRY beg to inform the Trade that they continue to supply Blue Lias Lime and Cements as usual at No. 3, Wharf, Paddington, only. Also Glass Drain Pipes.—N.B. No other lime kept at the wharf.

GREY-STONE LIME.—HALL, Brothers, Merstham Lime Works, near Reigate, beg to offer to Builders and others a list of their prices for Cash on delivery.

Grey-stone Lime	8s. 6d. per Yard, or 8s Bushels.
Ditto, for Manure	1s 6d ditto ditto.
Ditto, Ashes	1s 6d ditto ditto.
Blue ditto	2s 6d ditto ditto.

In not less than 8½ Yard quantities, and put on the Railway for all goods stations on the London and Brighton, and South Eastern Railways, or lines connected with them. A fresh supply hot from the kilns daily, at the Bricklayers' Arms and Croydon Stations, and delivered to all parts.

Prices for Cash on delivery.—2s. per yard at the stations or works; 3s. per yard delivered within five miles; in quantities less than a yard, quantities. Booking 3s. per yard; for which sets of pails monthly. Collecting charged for. The Quality is warranted to be the Best.—Address Merstham, near Reigate, Croydon, or Foulsplace, Old Kent-road.

ATKINSON'S CEMENT.—This Cement has hitherto been manufactured in Yorkshire, and, through long detention at sea, has often proved stale and unfit for use on its arrival in London. By the arrangement now made the Cement will be manufactured in London, and thus presented to consumers in a fresh and genuine state, by the sole Agents, J. B. WHITE and SONS, Millbank-street, Westminster.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings, and for internal doorways, instead of stone. The property of PARIAN Cement allows of its being painted or papered upon within a few hours of its application, and thus renders it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of wholly resisting frost. When used as a stucco it does not require so warm ground in damp situations, and requires no colouring. Employed as an hydraulic mortar for brick work, it carries from two to five measures of sand to one of cement, and is proved by it, as to become harder and stronger in these proportions than Roman Cement in equal measures of sand. Its immense cementing power, combined with its eminently hydraulic properties, point it out as the finest material for building and embankment walls, the lining of reservoirs, cisterns, and tanks, and for all those purposes where strength and a perfect resistance to water are required.

Manufactory—J. B. WHITE and SONS, Millbank-street, Westminster, and 31, Brent-street, Liverpool.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee — Messrs. ROBINS, ASPDIN, and Co. request reference to Nos. 283, page 451; and 286, page 484 of Vol. VIII. (1850) and 321 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, wherein the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement; it sets slow, and remains, any time, in a green state; nor is it affected by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland yard, Whitehall; also at their Depôt, 6, Hanover-street, Liverpool.

MARTIN'S PATENT
FIRE PROOF AND ORNAMENTAL CEMENT,
APPLICABLE FOR
ALL INTERNAL PURPOSES WHERE PLASTERING IS REQUIRED.

This invaluable Cement has now been before the public so many years, and obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. Messrs. STEVENS and BUSH however feel called upon to observe, that, from the greater extent of surface which a given quantity of MARTIN'S will cover, as compared with other Cements for internal use, there will be found a gain of 16d per cent. in material, full 7 per cent. less in prices, with an additional saving in labour of 10 per cent., by its allowing about forty minutes for working, being the best kind of time or other cements of a similar nature, therefore worked with greater facility, making together the enormous saving of full THIRTY-THREE PER CENT., its advantages therefore cannot admit of doubt. Specimens, showing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen, and the Cement, in any quantity, obtained of Messrs. STEVENS and BUSH, sole Plaster and Cement Works, 188, Drury-lane, London.—Manufactory, Durrows Mill, Derby.

N.B. This Cement will receive paint or paper in a few hours after the completion of the work by the plasterers.

BELL'S PATENT LIQUID CEMENT is ready for use, and only one-eighth the cost of oil paint. It is a greenish tint, giving the exact appearance of PURE STONE. It has been used in lieu of Roman Cement, or any other plastering, and will protect the walls as well as Roman Cement. In shades of L. S. and S. sort, at 8s. 6d. and 12s., cash inclusive.

PATENT MINERAL PAINTS.

Invaluable for their durability and permanence; not half the cost of other paints; always ready for use, will keep good for years, and therefore very suited for exportation. Brilliant black, 8s.; rich brown, 8s. 6d.; green and Indian colours, 9s. per gallon.

G. BELL and Co., 8, Wellington-street, Cornwall-street.

THE PARIAN CEMENT, for INTERNAL STUCCO.

No. 4, Porchester-terrace North, Paddington,
15th February, 1850.

Dear Sirs,—I have been reluctant to speak to the merits of Parian Cement, until sufficient experience enabled me to do so. As an extensive builder I have given it many trials, and now beg to express my perfect satisfaction with it. The house from whence I date was first inhabited by me on 7th September last, and a brick having been laid before the 1st of June—that is to say, in three months and one week! I observed the walls throughout with Parian; papered some, painted and varnished others; and the whole work has been dry and perfect from that hour. I need say no more—I am, Gentlemen, yours respectfully,

WM. SCANTLEBURY.

Messrs. Chas. Francis and Sons, Nine Elms.

JOHNS and Co.'s PATENT PERMANENT STUCCO WASH, CEMENT, and PAINT.—The attention of the trade and the public generally is solicited to these very excellent and well-known materials, which, for their beauty, durability, imperviousness, and cheapness are unequalled. THE PERMANENT WASH, as a substitute for common lime-wash or water-colour, is an article which has long been wanting for stucco and brick-work; it is of a stone colour, but may be tinted to any other; is perfectly dry in twenty-four hours; will not wash off; is very little dearer than the common washes; and, being a non-absorbent, is admirably adapted for railway stations, union workhouses, schools, barracks, prisons, &c. One coat is sufficient to cover, with two coats 120 square yards. THE CEMENT, from the great reduction in price, and its suitableness for internal as well as external surfaces, places it above all other materials of its kind; it has no caustic qualities; may be painted or papered in a few days; never blisters, cracks, or vegetates; soon becomes as hard as stone; and may be cleaned with a brush and water. The merits of the PAINT are well known for its application to the stucco work of all kinds, and external work generally. Numerous testimonials, prospectuses, and every information may be obtained, on application to the Sole Agent, PHILIP HARK, at the Warehouses, 28, Steel-yard, Upper Thames-street. A liberal allowance to wholesale dealers.

TO ARCHITECTS, BUILDERS &c.

ALL DESCRIPTIONS of CEMENT and PLASTER CASTINGS executed in a first-rate manner, on reasonable terms, by J. HEMBENT and SON, Modellers, &c. 43, Parker-street, Drury-lane. A splendid assortment of Corinthian, Ionic, and other Capitals, Centre Flowers, Ballusters, Trusses, &c. Elizabethan and other Chimney Shafts.

CEMENT, PLASTER, and COMPOSITION ENRICHMENT MANUFACTORY, 18, Crown-street, Finsbury-square, London.—WM. SMART, Jun., begs to inform architects, builders, and the trade that he is prepared to execute works of any magnitude in first-rate style and finish at very cheap rates. Architects' designs carefully modelled and truthfully carried out, and estimates given on receipt of detailed drawings, &c.—Wm. SMART, Jun., ARCHITECTURAL MODELLER and ORNAMENTIST, 18, CROWN-STREET, FINSBURY, London. Established in the family three-fourths of a century.

THE PATENT ARCHITECTURAL ROOFING TILES are strongly recommended as an improved system of roofing, and, from their extremely light and elegant appearance are peculiarly adapted for Gothic Churches, Parsonages, Mansions, Schools, ornamental and other Villas. A material feature of these Tiles is their economy: they are as cheap as ordinary slating, and do not require stronger timbers. Every information may be obtained by application to the Secretary, at the Offices, No. 188, Strand, where specimens of the Tiles may be seen.

MARLE BRICKS, HAMMERSMITH, at PAULKNER'S Brickfield, Hythe-lane, Hammersmith-gate. Marle Cutters, Yellow & comds, Pale Seconds, Parlours, and Pickings. F. Shipments to all parts of the world.

BRICKS.—In consequence of the low price at which Brick makers have, for some time past, been purchasing Ashes and Breeze, H. DODD is enabled to offer his bricks, which are of good quality, at the following low prices; and as his fields are only a quarter of an hour's walk from the City, H. D. earnestly requests purchasers will favour him with a visit, in order to inspect his stock and to judge for themselves.

Malm Cutters	40s. per thousand.
Yellow Seconds	35s. do.
Pale Seconds	30s. do.
Parlours	45s. do.
Pickings	25s. do.

Marle Place, Half-washed Stocks, and Place Bricks, at equally low prices. These bricks are sound, well burnt, and unusually free from defects; a very large proportion of the finest being suitable for external facing. They will be delivered at the above prices anywhere within two miles of the fields.

Apply to HENRY DODD and Co., at the Coasting-house, Stanton Brick fields, Grange-walk, near the Rosemary Branch, Hoxton.

N.B. Red Pit Sand, of approved quality, constantly on sale, upon reasonable terms. In the erection of walls, where it is desirable that the work should be kept as free from damp as possible, this sand, from its not containing any saline matter, is acknowledged to be preferable to river sand.
